<b>Position:</b>	<b>Date Posted:</b>
QUALITY AUDITING COORDINATOR	3/28/2008
<b>Company/Agency:</b>	<b>Location:</b>
DELCAN CORPORATION	St. Louis & Kansas City, Missouri
<b>Requirements:</b>	
<p>BS Civil Engineering or similar engineering education          10-20 years of experience in transportation engineering          PE license with ability for Comity in Missouri</p>	
<b>Description:</b>	
<p>The ideal candidate will have significant experience managing design and/or construction engineering with an emphasis on quality management, quality assurance, and quality auditing. Ability to professionally train traditional design reviewers and construction inspectors as quality auditors is required.</p> <p>The successful candidate will be involved in assisting the owner agency in monitoring designers and contractors to verify that project requirements are being achieved. Experience with ISO 9000 Quality Management Standards would be beneficial. Advanced proficiency with the use of relational databases, spreadsheets, statistical analysis, and strong verbal and written communication skills are essential.</p> <p>Responsibilities will include assisting the director of a small project team involved in oversight, training of team personnel, management and development of project requirements, communication with designers and contractor, and implementing an advanced quality oversight methodology that links requirements and specific contract terms with a strategy to monitor contractor performance against those requirements.</p>
